Catalogues available early/mid September at [www. Letstalkpigeontalk.org.au](http://www.Letstalkpigeontalk.org.au)

Foreword

Due to unforeseen circumstances Barry & Gwen need to relocate and with Barry not enjoying the best of health lately it has been decided to sell off his stock and race birds. Gwen will be keeping some of the birds that she has been racing in her name and Barry will attempt to continue racing in partnership with John Blokland, which he has been doing for the past few seasons.

Barry has successfully bred and raced pigeons for over 50 years, winning many Club & Federation races with the Qld Racing Pigeon Fed and later with the Toowoomba Federation. He is most notably remembered for the famous ABC birds, which when crossed with the Balfe Harrisons and other lines brought a great deal of success to himself and many other flyers. Barry's passion has always been for the all day races finishing into the evening and the next morning. Space does not allow to detail the many many successful birds and races that have been flown from his loft.

This success has continued right up to the present with Gwen winning the Thargomindah Fed 600 miles in 2009 clocking the bird at 4am on the second morning. Other recent notable successes have been 2nd Fed Temora 580 miles and 3rd Fed Jerilderie 650 miles, both sisters bred from the Grizzle family.

Most of these winners can be traced back to what is known as the old Brisbane blood, consisting of birds based around the Balfe Harrisons (Ron Scott), the Uncle Sam birds (Ted Chester) and the Watson Pies (Lou Cooper & Jim Watson), all long distance families that have been blended along the way to produce birds that excel at the hard long distance races. No better distance blood is available than these lines.

The Watson Pies:

The Watson Pies were first brought to Brisbane from the Newcastle area by Lou Cooper. They were made famous by the late Jim Watson, the former President of the QRPF who won the 700 mile Townsville race with a hen he bred down from these Lou Cooper birds. This hen was the first of only two birds home in race time from this very difficult race. Her sire **Blue Bar Pied cock 1367 WHC 72** also bred a Goulburn 540 mile Fed winner clocked at 1am and 2nd in the 700 mile Junee Fed, as well as 13th Fed Camden 450 miles clocked at 9.45pm. This pied cock has featured prominently in many of the best long distance winners right up until the present.

Uncle Sam:

The Uncle Sam or American 1000 mile pigeons were brought to Australia by the Bushell Brothers of Sydney. Ted Chester purchased the Uncle Sam cock as well as his dam and brought them to Brisbane way back in the 1920s. Crossed into the Brisbane pigeons, particularly the Balfe Harrisons they were to dominate long distance racing and their blood line also continues until this day.

Balfe Harrisons:

The old Balfe Harrisons bred down from via R Scott's Moonlight hen **1118 QRPA 46**, this hen was clocked at night from Quilpie 520 miles taking 2nd Open Fed. She was a daughter of Ron Scott's number one pair and went on to be the dam and grand dam of numerous champion distance birds back in the 1960s. In particular when she was mated to **16227 VHA 46**, a cock from Clarrie Latchford and brought to Brisbane by Alan Anderson, they produced a whole line of champion distance birds. **.2220 QPF 59**, known as the Beasley Cock but ended up with Eric Paine, was bred down from the famous Moonlight hen of Ron Scott and sired such famous stock as **168 QHS 66**, sire of R Scotts Junee Fed winner plus many other top winners. **1478 WHC 60** the sire of 5594 placed 1st Fed Townsville for Noel Randall, a hen that can be found in the pedigree of many distance winners of today. These birds were greatly sort after back then and still are by today's astute long distance fanciers.

The Grizzle Blood

Barry's top distance winning grizzles all trace back to the Grizzle cock **9897 QPF 87** who was placed 1st Fed Goulburn 540 miles clocked at approximately 10pm at night, to win what was a hard race for Russel Beetham. 9897 was bred down from Russell's top **Grizzle hen 1942 QHS 71** when mated with his No.1 stock cock **519 QPF 80**, who sired 1st Fed Bega 700 miles and 1st Fed Cobar 540 miles. This pair bred **15572 QPF 84 Grizzle cock** who was the sire of 9897. Only 4 young were bred from 9897 in Barry's loft before he was unfortunately killed by a snake. Of these **54 NIPC 90** went on to breed a number of good race birds and even better stock, 55 was also killed by a snake and **99 NIPC 90** was given back to R Beetham. 99 was placed 18th Fed Bega 700 miles and equal 3rd Fed Camden landing 2 minutes behind the Camden Fed winner for Russell and he too has left his mark in the stock loft.

Reference Pigeons

Ref No.1 Blue Bar Pied Cock 802 NIPC 96 – Son of **2885 QPF 79** BBPC bred by W Sloan (2885 a son of the Champion Watson Pied cock **1367 WHC 72**)

802 was clocked by John Blokland from Townsville 700 miles winning the club and the West Section, unfortunately the QRPF Federation race was called off due to birds escaping from the North Section crates. 802 would have been placed 3rd Open Fed.

802 is the sire of 6th Fed Cunnamulla, 5th Fed Talwood, 9th Fed Charleville & 2nd Fed Charters Towers (clocked at 12.30am). He is the G'Sire of 2nd Fed Auguthella, 10th Fed Cheepie, 4th Fed Bunnaway, 3rd Fed Clermont, 5th Fed Mungalla, 9th Fed Coonabaraban, 2nd Fed Morven etc.

802 by 2885 x 1613 NIPC 93

2885 by **1367 WHC 72**

1367 the famous Watson Pied cock, sire of 1st Fed Townsville and 1st Fed Goulburn etc Champion Watson Pied cock

1613 by 622 NIPC 89 x 87 NIPC 89

877 by 2200 QPF 82 BBP x 8763 QPF 80

2200 & 8763 are both g'children of 1367 WHC 72

1367 the famous Watson Pied cock, sire of 1st Fed Townsville 700 miles and 1st Fed Goulburn 540 miles.

15071 dam of 1st Fed Camden 450 miles for C Porter, an inbred Watson Pied hen

14720 by 218 NAM 92 x 1159 NAM 88 both 218 (g'son) and 1159 (dau) of Champ 1048 QPF 77 (J Hamlet from O'Toole 1644 x 2002 blood)

Ref No.5 Known as the ABC pigeons of Barry Hutchinson

Ref A Light Cheq Hen 1370 QPC 72

Ref B Blue Bar Cock 1401 QPC 71

Ref B Blue Bar Cock 1402 QPC 71

These three pigeons when mated together and crossed into the Old Brisbane blood, mainly through the Balfe Harrisons produced a dynasty of top line winners at all distances. Long distance birds performed better and came home regularly at night and middle distance birds became a lot quicker depending on how much of the above birds blood was in their pedigree.

The ABC blood is still producing winners to this day.

818 QPF 99 bred from 14992 QPF 87 x an inbred grand daughter of 14992

14992 by 374 QPC 74 x 690 QPC 72

374 & 690 are brother & sister both bred directly from Ref A & B.

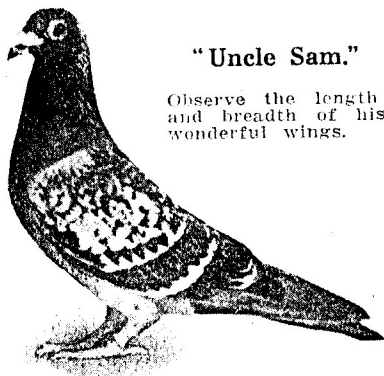

The inbred grand daughter of 14992 bred 1st Qld Cup in 1996, her sister bred 9th Qld Cup 1997. another sister is the G'dam of 1st Fed Gold Band race 2004.

Uncle Sam Blue Cheq Cock E4398-16

Bushell Bros Haberfield Model Lofts Sydney NSW August 1st 1919

American 1000 mile strain

World Champion Long Distance Racing Pigeon, the holder of two separate World Records as follows: In

"Uncle Sam."

Observe the length
and breadth of his
wonderful wings.

1917 flew from Abilene Texas to Fort Wayne 1011 miles in the fastest time ever flown by a yearling. In 1918 flew the above 1011 miles stage twice viz on June 27th & July 12th being the first bird in the world to fly the 1000 mile stage twice in the one season. The last race proved a very disastrous one, Dr Schelling himself losing both birds he sent to that race.

Bred and race by Mr Lenz of Fort Wayne Homing Society he is a combination of Dr Schelling's Beach and Nahrwolds 1000 mile strain.

Performances:

1917 all stages from Fort Wayne to Abilene 1011 in the fastest time ever flown by a yearling

1918 flew 1000 miles twice in the one season. June 27th and July 12th being the first bird in the world to fly this stage twice in the one season.

Dr Schelling himself states the performances seem almost incredible even to those who handled the races, know of the facts and can vouch for the record. He processes a wonderful wing, Mr Sandiford who handled this bird on arrival states he never before handled a pigeon for his size with such wide and lengthy flights, which extend almost to the tip of his tail.

Lot 1 Light Cheq Cock 563 LRPC 09

Sire: 2244 QPF 05 Blue Bar Cock J Blokland Full brother to 2nd Fed Augathella 420mls

2244 by 3589 LRPC 04 BBP x 20580 QPF 01 BB
