Reference Birds Preface

For personal reasons Craig Porter has decided to sell all his stock and most of this year's youngsters. A small contingent of young birds will be retained to keep the lines but Craig does not expect to be able to race pigeons again for a number of years.

Craig Porter topped the QRPF Inc overall averages and the long distance averages again in 2002. Racing the Southwest route out to Broken Hill 700 miles proved to be a very hard for the QRPF members culminating with very tough 600 & 700 mile races with very few birds making it into Brisbane in race time. Craig's birds again showed the way with many top performances, including 2nd Fed 500 miles clocked at 10.30pm, 4th Fed 600 miles, one of only 7 flyers to clock birds on the third day, and 3rd Fed Byrock 460 miles with only three birds home on the day clocked at 8.20pm. The 600 mile Fed hen also took 8th Fed from Byrock 460 miles.

Over the last 14 years Craig has been club champion 11 times, been the South Section Champion on five occasions, including champion for the last four years straight (70 flyers in the section), been the QRPF champion three times, finished 2nd once, 3rd twice, 4th once, 6th once, 7th twice, 9th once and 12th twice, an enviable record at Federation level by anyone's standards. Craig believes that the family has really come together in the last 4 years, winning the open Fed averages in 1999, 2nd in 2000, 6th in 2001 and winning the averages again in 2002.

The quality and ability of Craig family of racing pigeons has kept him at the top of the tree for many years now. His birds are bred around the old Brisbane distance blood and a blue pied cock from Shaun Elliott. These birds are renowned for their ability, not only to win but also for their doggedness to get home. The blending of winning bloodlines has resulted in a line-bred family that can consistently lead the packs home. Their determination to reach home often amazes and frustrates fellow fanciers, who on hard days, lamenting the empty perches in their lofts, they shake their heads in disbelief on hearing of Craig's good returns

Craig's breeding methods have resulted in consistent winners over a long period and are producing more and more good birds each year, and less and less of the undesirable traits that dampen race performances. Craig prides himself on getting good returns from every race, be it hard, easy, slow or fast and also birds that will keep coming into the night. Over the years Craig has probably had more birds home in the night than just about any other flyer in the QRPF.

A few examples are:

19810 1st Fed Mackay 820 klms clocked at 9.30pm (only bird on the day in the Fed), 10647 2nd Fed Mackay 820 klms clocked at 8.30 pm, 19131 2nd Fed Mackay 820 klms found in loft at 2.30am. 22504 2nd Fed Cobar clocked at 10.30pm 2002 (only 3 birds home that night), 20052 clocked at 8.20pm for 3rd Fed Byrock (only 3 birds in the Fed on the day, the other two were clocked to shorter markers during daylight). In a Goulburn 820 klm 10 bird race some years ago Craig had 4 of his 10 birds home in the dark, the first bird taking 7th Fed and there were only nine other flyers with night birds in the QRPF. In another memorable race from Marlborough 610 klms, Craig had 8 birds home in the dark while many other flyers were still looking for their clock bird the next day, his first bird clocked at 7pm (three landed together) took 8th Fed. Over the last 12 years Craig has clocked birds in the dark in 17 races, all have finished in the top 15 Open Fed with 8 times in the top five Open Fed places, a truly remarkable record.

Craig has competed in 61 Fed races conducted over the last 11 years over 400 mile mark. In these races Craig has taken top 10 places on 25 occasions, top 20 places on forty occasions and top 30 places on 49 occasions. He has also won 112 club races plus 60 second places over the last 11 years in one of the strongest clubs in the QRPF, including the long distance champion every year since 1992.

Reference Birds

These birds will be of benefit to any loft, there will be no reserve on the birds and all must be sold. The pigeons are sold in good faith with all stock breeding successfully during the past breeding season but of course no guarantee can be given on their future performance.

Statement:

Selling my family of racing pigeons, which I have developed since my teens is something I never thought I would do but circumstances change from time to time and this influences what we must do.

The pairs I mated for this last breeding season were carefully selected with the view of keeping the family breeding lines strong and maintaining the winning and producing characteristics of this family into the future. These matings provide an ideal opportunity to my fellow fanciers to purchase birds bred the way I would be pairing them for myself. I believe the young birds and the established breeders offered in this sale provide a great opportunity to start a winning family of racing pigeons that are able to handle all racing conditions, or to the established breeder, the opportunity to strengthen their current lines. My best wishes go to all purchasers at this sale and I hope you have has much success and enjoyment as I have.

Please do not hesitate to contact me if you require further information about this family of racing pigeons.

Your's sincerely

Craig Porter.

Reference Birds

Reference A:- 442 CHPC 77 Blue Bar hen

442 CHPC 77 BBH won the prestigious Townsville Open Federation race 1140 klms back in 1978, 442 was clocked at 3.20 pm to be the first of only 4 birds to make it home on the second day, her sire and dam along with the sire's sister have all played a major role in the formation of this winning family. The sire and dam also bred 18th Open Fed Windorah 965 klms, clocked at 2.35pm on the second day in 1981, two full sisters and a brother were 2nd, 3rd & 4th birds home, all clocked within 25 minutes on the second day. Another youngster was 15th Open Fed Windorah in 1985 at 6.10 am on the second morning. (the sire and dam were 10 and 9 years old at the time), truly champion stayers, with that "iron will" to reach home.

442 was mated to a nephew and bred three hens to fly Broken Hill 1200 klms, two of these hens, 380 and 6544 bred 14 winners between them.

6544 produced nine of these winners, 6544 was mated to 3240, her uncle, in 1989 and produced 9029 89 QPF BCC and 9007 89 QPF BCH.

9029 bred 2nd Fed Mackay (10647) 820 klms clocked at 8.30pm, 8th Fed Charleville 720 klms, 10647 who won 2nd Fed Mackay then bred the Mackay Fed winner (19810) clocked at 9.30 pm to be the only bird home on the day. He has also bred 9th Fed Cobar 820 klms and 20th Fed Gladstone as well.

442, 6544 and 9007 are the matriarchs of the loft and have been closely in-bred every year to maintain the winning bloodlines.

Reference B:- 9007 89 QPF BCH (G'Daughter of Ref A)

9007 bred 15th Fed Broken Hill 1200 klms, 8th & 17th Fed Townsville 1140 klms and was grandam to 15th Fed Townsville in 2000 only 28 clocks in race time. A daughter of 9007 (19643) bred 10th Fed Cunnamulla 720 klms clocked at 7pm, the daughter 19643 in turn bred 14853 who was the dam of 2nd Fed Mackay 820 klms, found in the loft at 2.45 am in the early hours of the second morning with only the two birds home in the Fed during the night. 14853 (Lot 55) also bred 18330 (Lot 47) who was the dam of 1st Section 13th Fed 380 miles and 2nd Section 6th Fed 740 miles as well as 2nd Section Roma Charity race 280 miles.

9007 also bred the following three birds, 19185 (Lot 16) who sired second bird 500 miles at 7.45pm to be equal 6th Fed, sired 1st Section 3rd Fed Byrock 460 miles clocked at 8.20pm 2002. 21809 (Lot 62) is the dam of 2nd Section, 4th Fed 500 miles at 7.30pm and 3rd Section, 15th Fed Townsville 700 miles (only 28 clocks in race time). 894 (Lot 20) 2nd Fed 380 miles, equal 7th Fed 550 miles, equal 20th Fed 350 miles. The 2nd Fed 380 miles hen was also 2nd bird to the loft from Townsville 700 miles 2 minutes behind my clock bird who took 8th Fed (this clock bird was also a daughter of 9007)

Reference C 371 QPF 76 Blue Bar Pied Hen

371 QPF 76 BBPH bred by J Watson was daughter of 5379 QPF 74 (Watson's Townsville 1140 klm Fed winner clocked at 10am on the third morning with only two birds home in a week) when mated back to her grandfather. 5379's sire bred 1st Fed Goulburn 820 klms (clocked at 1am), 2nd Fed Junee 1100 klms as well the Townsville Fed winner for three different flyers.

Craig also purchased a pair of birds at J Watson's clearance sale (following his tragic death) that were of a similar blood to the 371 hen. This pair, 108 BBC and 1494 BBPH bred a son 9365 that flew Broken Hill 1200 klms and was mated to 371 to produce 400 BBPC, 350 BBPH & 399 BBPH.

400 BBPC when mated to 442 Ref A, the Townsville Fed winner bred 6th Fed Bega 1100 klms. 350 BBPH bred 3rd Fed 800 klms for C Wright and features strongly in the sire of C Wright's Windorah 965 klm Fed winner in 2001. 399 BBPH bred 15501 who was mated to 1483 Ref E to breed 7th Fed Goulburn Fed 820 klms clocked at 7.30pm. 23079 a son of 1483 x 15501 was a double winner and sired 8th Fed 540 miles at 8.40pm and 12th Fed 600 miles at 7.10pm.

Reference Birds

23079 was mated back to his dam 15501 to breed 15072 who sired 1st Section 6th Fed 300 miles clocked at 7pm (only bird home in section on the day) and 8th Fed 380 miles at 7pm, 9th Fed 460 miles clocked at 1am and 15th Fed 650 miles at 9.35pm. 15031 a sister to 23079 was the dam of 14th Fed 180 miles and 2nd Fed 420 miles

108 BBC was also mated to 371 to produce one of Craig's best ever stock hens 3615

Reference D 3615 85 QPF Blue Bar Pied Hen (daughter Ref C)

3615 85 QPF BBPH a daughter of 108 and Ref C was dam of 3rd Fed Broadmeadows 610 klms, 5th Fed Bega 1140 klms (this hen 20321 was also second bird home from Goulburn at 8.10pm at night and could have taken 8th Fed), 3615 is the dam of 23067, 10th Fed Quilpie 820 klms, 8th Fed Charleville 720 klms and herself dam of 9th Fed Cobar 830 klms, 17th Fed Noccowlah 1140 klms and equal 6th Fed Morney 1150 klms.

3615 is the grandam of 14722, 1st Fed Camden 720 klms winning by 27 MPM clocking at 6.10pm on day of release, the same time as the Gold Coast flyers had clocked, some 45 klms shorter.

3615 is also the grandam of 2nd Fed Mackay 820 klms clocked at 2.45 am, 7th Fed Quilpie 820 klms at 8.15 pm, 9th Fed St George 450 klms, 4th Fed Mackay 820 klms at 7.30pm and 15th Fed Townsville 1140 klms

3615 when mated to 9365 bred 15071 who is the dam of 1st Section 1st Fed Camden (14722) 470 miles by 27 mpm clocked at 6.10pm, 10th Fed 380 miles, 17th Fed 540 miles, equal 15th Fed 470 miles at 7.45 pm and 9th Fed 600 miles at 2.20pm second day. 14770 QPF 94 brother to 14722 also home in dark behind his winning sister at 6.40pm in top 10 Fed. 14770 was mated to his G'Dam Ref D to breed QRPA 95 898 and QRPA 95 896. 898 is the sire of 2nd Section 4th Fed 500 miles at 7.30pm, 3rd Section 15th Fed 700 miles at top sire of distance birds, unfortunately was killed last year by a goshawk. 896 is the dam of 22nd Fed 500 miles, 14th Fed 230 miles, 3rd Section 10th Fed 280 miles, 1st Section best velocity in Brisbane 420 miles clocked just before dark and 1st Section 3rd Fed 460 miles at 8.20pm.

The above birds are referred to as the "Watson Pies", an old Brisbane family based around Jim Watson's Townsville Federation winner. The bloodlines originate from the old Latchford Harrisons brought to Brisbane many years ago by Lou Cooper.

Reference E:- 1483 84 QPF Blue Bar Pied Cock

1483 84 QPF BBPC was the best cock Craig ever introduced into his family. This cock, often referred to as the Elliott Pied Cock, was purchased at Shaun Elliott's sale in 1986, 1483 was a very fast race bird that had won a 1st place and 3 x 2nds for Shaun and could easily have won four races but would not trap. At stock he has proven to be a gold mine producer.

1483 contains the best of the old Brisbane ABC blood with some of Shaun's Delbar blood and Busschaert from R Hunt in West Australia. He was mated to 6544 (dam of Ref B and an inbred daughter of 442 Ref A) and produced six winners, including a triple winner.

21896 a son of Ref E and 6544 was clocked 6 times including two wins. 21896 mated to 15071 (inbred daughter of Ref D) bred 10th Fed 380 miles, 17th Fed 540 miles, equal 15th Fed 470 miles at 7.45 pm and 9th Fed 600 miles at 2.20pm second day. 21896 was mated to 19996 who is a full sister to Ref E and bred 9003 QPF 89 who in turn when mated 3320 bred 1st Fed 300 miles (19696) and 19695

1483 was mated to 19695 to produce 23115 who bred 12th Fed Tuncurry, 8th Fed Townsville and sire of six individual winners. 19695 is also the dam of 2nd Fed Broadmeadows 380 miles, 1st Section 2nd Fed Morven 380 miles and 23114 who sired 8th Fed 380 miles and 1st Section 3rd Fed 640 miles. 19696 when mated to 23166 (Ref A C & E line with a Clinghan Janssen cross MELB 96 2331) bred 19842 (Lot 75) 1st Section 13th Fed Bowen 600 miles 12.30pm second day, 19841 flew 600 miles and dam of 6th Fed 310 miles, 19892 (Lot 49) who is the dam of 1st Section 4th Fed 660 mile smash and 8th Fed 460 miles.

1483 was back mated to the triple winner (15583) and produced two cocks, 9001 BBPC and 9002 BBC

Reference Birds

9001 is the sire of 23067 who won 10th Fed Quilpie 820 klms, 8th Fed Charleville 720 klms and herself dam of 9th Fed Cobar 830 klms, 17th Fed Noccowlah 1140 klms and equal 6th Fed Morney 1150 klms. 23067 was mated back to her grandsire (1483) to breed 10681 BBPH and 10627 BBC.

9002 sired the Camden 720 klm Fed winner plus 8 other first place getters.

10627 92 QPF bred from 1483 Ref E and 23067 Ref F. 10627 bred 1st Section 2nd Fed Mackay 820 klms clocked at 2.45am (only two birds home during the night in the Fed), 7th Fed Quilpie 820 klms at 8.15 pm, 1st Section 9th Fed St George 450 klms, 11th Goondiwindi Fed 2002. 10627 is the grandsire of 18337 BBC (836 x 19107), a winner of four races including 1st Section 3rd Fed Gladstone 450 klms in 2000 as a two year old. 18337 has continued the winning line by breeding two winners already from just a couple of youngsters bred.

Ref E mated to 15039 (Ref A, C & E blood) to breed 22698 QPF 91 and 10690 QPF 92 (Lot 48). 15039 was the dam of 4th Fed 350 miles, 16th 470 miles, 14th Fed 370 miles and 14th Fed 370 miles.

22698 is the sire of 20th Fed 500 miles, 28th Fed 600 miles, 24th Fed 310 miles, 22nd Fed 500 miles, equal 7th Fed 600 miles and 127 (a triple night bird, 14th Fed 660 miles found on loft roof at 5.15am, equal 10th Fed 545 miles at 9.10pm, top 25 Fed 460 miles when second bird to loft at 8pm). 22698 when mated to the Bricoux line (17604) is the sire of 14714 28th Fed 600 miles and is the sire of 6th Fed 180 miles, 10th Fed 460 miles at 7pm. 14714 (Lot 14) mated back to the Bricoux hen 17604 bred 194.

10690 (Lot 48) is dam of 2nd section 2nd Fed Bowen 600 miles, 9th Fed 380 miles and 7 individual winners. A sister of the 2nd Fed Bowen hen 19164 was given to R Rooke who mated her to MELB 96 2331 BCC, a Clinghan Janssen to breed 23166 QPR 98. 23166 mated back into the family has sired 19841 flown 600 miles twice and dam of 6th Fed 310 miles, 19842 (Lot 75) 1st Section 13th Fed Bowen 600 miles clocked at 12.30pm second day, 19892 (Lot 49) dam of 1st Section 4th Fed 660 miles smash 2002 (only 8 birds home in race time), 4th section 8th Fed 460 miles. 22507 2nd Section 7th Fed 550 miles clocked at 5.40 am, 20th Fed 350 miles. 19735 (Lot 33) was third bird to loft 550 miles behind her sister to be equal top 10 in Fed and was also third bird home in good time from 660 miles. 20037 (Lot 74) 28th Fed 220 miles, 33rd Fed 310 miles and equal 8th Fed 460 miles.

194 (Lot 27) sire of 19188 equal 5th Fed Bowen 600 miles (also 1st club at 430 miles), 18324 was 3rd Section, 17th Fed 740 miles at 3pm on the second day, 28th Fed 550 miles, 39th Fed 270 miles and third bird home at 9.30pm at 460 miles and equal 2nd Section 6th Fed 740 miles (two birds on the drop). Unfortunately 18324 never laid. 194 was mated back to 10690 (grandsire's sister) to breed 19802 (lot 26) who sired 22504 (Lot 66) 1st Section 2nd Fed Cobar 520 miles clocked at 10.30pm with only three birds home in Fed at night. 194 was also mated to 20321 5th Fed Bega 700 miles a daughter of Ref D and my original Bricoux to produce 19188 and 19101. 19101 flown 600 miles was mated to sire of Lot 37 to produce 137 1st section 3rd Fed 550 miles at 5.40am second morning, who in turn bred 19810 1st Section 1st Fed Mackay 500 miles, only bird on the day and also won 9th Fed 380 miles to be the QRPF bird of the year 2000

A sister of 1483 was borrowed and mated to a son of 1483 & 6544, they produced 9003 QPF 89 that in turn bred 1st Fed Collarenebri 480 klms and is a great asset to the stock loft.

1483 was mated to an inbred Watson pied (15501 QPF 86) to produce 7th Fed Goulburn 820 klms clocked at 7.30 pm and 20379 who won at 200 and 380 klms and than sired 8th Goulburn Fed 820 klms clocked at 8.40pm.

Reference F:- 23067 93 QPF Blue Bar Pied Hen (Daughter of Ref D) Lot 68

23067 93 QPF BBPH bred 10627 who bred 2nd Fed Mackay 820 klms clocked at 2.45am (only two birds home during the night in the Fed), 7th Fed Quilpie 820 klms at 8.15 pm, 9th Fed St George 450 klms, 11th Goondiwindi Fed 2002. 10627 is the grandsire of 18337 BBC, a winner of four races including 3rd Fed Gladstone 450 klms in 2000 as a two year old. 18337 has continued the winning line by breeding two winners already from just a couple of youngsters bred.

10681 another daughter is the dam of 9th Fed Collarenebri 480 klms, 1st Section hard St Lawrence 675 klms 2000 (best velocity in Brisbane, clocked just before dark) and grandam of many good birds.

Reference Birds

Reference G:– 17604 QPF 87 (the Bricoux line) bred by Tommy Bell

The Bricoux originate from George Cathcart who collected these birds back in the 50s and 60s. I obtained few of these birds in the early 70s and they were mated into the Ref A line and were very successful at the distance such 9th Fed 460 miles clocked at 1am, 10th Fed 760 miles 2pm second day, 5th Fed 660 miles, equal 8th Fed 540 miles at 8pm etc. They crossed very successfully with Ref C line as well

17604 being from the same source was introduced in 1992 to bolster the blood. The Bricoux have added that extra “will to home” particularly late into the night. 17604 when mated into the Ref E line played a major role in 1st Fed Mackay at 9.30 pm only bird in Fed on day and 2nd Fed Cobar clocked at 10.30pm.

Stock Cocks

Lot 1:- QPF 92 10627 BBC (old ring bred 1994)

Bred by C Porter

Sire: Reference E

Dam: Reference F

Lot 2:- QPF 92 10608 BBC

Bred by C Porter

Flown 500 miles and sire of 2nd Fed Bowen 600 miles, 9th Fed Marlborough 380 miles, equal 10th Fed Collarenebri 300 miles (no birds on the day)

Sire: QPF 85 3320 BCC Bred by Shaun Elliott Delbar

Sired 1st Fed 300 miles, grand sire 8th Fed 700 miles

Dam: QPF 90 12965 BBH

Inbred to 442 Ref A (both Sire and Dam bred down from 442 Ref and Ref C and the old O'Toole lines)
