Overall 2001 off West. 3 x Fed Section Champion O/all. Top 10 Fed QRPF overall x 7 Times & Top  
20 Fed QRPF x 5 Times in 12 full Seasons.

Brisbane Sale. Sunday 26th July @ Wynnum Manly Pigeon Club; Belmont rifle  
range complex. Contact- Dennis Martens 3390-3894.

Viewing from 9:30 am. Sale starts 11:30 am. Contact vendor 38012380. Email for online  
catalogue now [davidleaders007@hotmail.com](mailto:davidleaders007@hotmail.com) Printed catalogues available June.

Catalogue is edited details of each LOT # as read straight off pedigree page. There will be Computer Generated Pedigree (encased in clear plastic sleeve) for every single bird. These will be handed to buyer/s upon settlement. Anyone wishing to view pedigree of any particular bird is requested to arrive in good time to browse through binder containing them all well before sale begins.

See lead story ARPJ issue April 2009. This is Once Only opportunity to obtain birds from this close  
family. Very successful (14 years) in QRPF; esp over Long Distance.

In my time involved; I've never kept a big team of stock birds. At the peak of success i kept 20 stock Cocks & around 35 Stock Hens. The Key Cock birds were rotated regularly with selected Hens. Hence, some Cock birds feature prominently. Key racers/producers feature a few times in any 5 Gen pedigree. Many Hens have been used sparingly, simply because there wasn't enough Cocks to pair them to. Stock birds had separate lofts year round. Some Hens missed a season if/when they paired with another Hen. Instead, those Two Hens were used as sitters/feeders when i split pairs to re-mate any specific Cock.

With the decision made to exit the sport, i set about breeding enough to make 3 sales viable. Started breeding when 2008 rings came out in May 2008 & finished late Feb 2009. I double rung around 70 towards end from select pairs. This was to make them easier to find when catching them for each of 3 sales. However, Two rings made it difficult to sort them all when drafting catalogues. The older ring is easily snapped off if not required. Also you will notice most old birds have an (extra) aluminium ring. These are easily removed. They were put on when their racing merit earned them a place in the Stock loft. Any bird with One white flight+ is called a Pied. All youngsters were sexed via toe/foot method when weaned.

As mentioned ARPJ article, no 2008 rung birds have been homed in or flown. They've been trained to eat & drink in crate via weaning process. They may feel a bit heavy come sale time due not having flown. They may be flighty in sale pens simply because they haven't been handled (or seen people) except myself. You won't see any show birds or mass produced ordinaries in sale pens. You will see top quality racing pigeons. Race proven (over 14 years) at very highest Fed Level QRPF.

Lot: 1 – BCC- QPF-2007-18344

Had 5 races. injured wing night fly August 08. unable to fly with team so rested. to fly as 2yo.

SIRE: QPF-1996-BCC11631
