Testimonials

I first met Barry Devine in 2010 and we have remained friends ever since. I had only started racing pigeons in 2006 and my results were only average. Barry saw that I was keen as mustard but lacked the know-how and the pigeons to be competitive. He then started mentoring me by giving me the right advice on how to feed and train my birds in preparation for race day.

Barry has since gifted me squeakers from his "top shelf" stock pigeons with the majority being straight bred from his Stichelbauts & Raven Van Loons or a cross of both of these lines. In 2011, I started timing in birds bred by Barry and this became more regular in 2012 and 2013. In 2014 I timed in one of Barry's Stichelbaut & Raven Van Loon crosses in the first race of the season from Marulan for my best result ever for 1st club, 5th section, 5th Fed in the very strong Central Cumberland Federation with over 300 flyers.

Another of Barry's birds crossed the same way performed well for me as a young bird and I expect he will perform favourably in the 2015 season.

I highly recommend Barry's birds for the most astute racing pigeon fanciers.

Tony Digiorgio.

For the last four years Barry has supplied me with young pigeons to race and every year I have won a race or two with his pigeons. I would have no hesitation in recommending these pigeons in the auction to any keen flyer who wants to win races.

I know other flyers have raced Barry's pigeons with great success.

Anthony Agius.

Snowy Ward Grizzles

Would be the oldest strain of pigeons in Australia still racing and winning. The Grizzle Pigeons arrived in Australia in 1919 on a sailing boat from England. Imported by Mr Con Hammond who owned the Camilla Grove Hotel in Alexandria, an inner city suburb, which is still operating today.

At some time the Grizzles were taken over by Snowy Ward, who lived in the same area. His home backed onto the railway yards where trains from all over the state came to load up with coal for their return trip back to the country. Many a coal train driver would be gifted a pair of Grizzles and they virtually ended up all over Australia. They became known as the Snowy Ward Grizzles & they have raced now for almost 100 years in Australia. They were a successful, reliable race pigeon then & still are today! No trouble flying the 600 & 700 miles. Kevin Boyce, a very young boy at the time became the loft boy for Snowy and for many years raced as Ward and Boyce. There were bronze pigeons that came out of the Grizzle and it is a known fact that well known flyer Bill McLean was a good friend of Snowy's and he took the bronze pigeons and that was how the Bronze McLean pigeons developed. The grizzle pigeons are responsible for over nine known National winners, 3 x 1st Union National winners, many 600 mile Combine winners and were responsible for most Club averages winners with over 60 flyers in each club in the sixties.

The Snowy Ward & Boyce Grizzle in 2014

It has taken me over fifteen years to put the Grizzles together and many thousands of dollars. I have only kept the best and I would have the best collection of the Ward & Boyce grizzles available in Australia today!

I have sold them all over Australia and they have bred winners in every state.

Flyers keep telling me that you cannot lose them and on many occasion they will race every week and make an excellent cross with all breeds. The checkers & Blue Bars off the Grizzles are just as good. I could write many pages about the winners that get reported to me, but time and space does not allow me.

One of my Grizzles that I sold and repurchased back, who has bred winners and sire of producers in Sydney. He is known as the IRON DUKE AUST 06.12458, a very dark chequered Grizzle, his young will be in the auction. His children & grand-children raced every race from Sydney to Bourke and took 1st and two 2nds in the last three long races for Bob Applebee. Also winning all the pools in the CCF National \$1500. Keith Wrightson also did very well with my Grizzles acquired through a second source.

These two old time flyers don't go in for the new breeds from Europe and when these Grizzles can go to the USA and win against the best, it makes you think.

The IRON DUKE is the short name for the Duke of Wellington, a famous General, who defeated Napoleon at The Battle of Waterloo & was twice Prime Minister of England.

The Staff Van Reets.

The Staff Van Reets on offer are the same as the ones that were sold for \$95,000 at Andrew Carrington Clearance Auction 3 years ago in Sydney.

Andrew's testimony: "*winning is easy when you have good pigeons*". One Staf cock in my pedigree ring number BELG 2000.6517657 sold for \$3,500. His half-brother the replacement cock, ring number BELG 2001.6524723 sold for \$7,000. His sire BELG 1989 6611641, dam BELG 99.6555734 all these Stafs shown in my pedigree.

These Stafs are becoming very hard to acquire nowadays. There are numerous winners recorded from these pigeons. Ken Tucker Rockhampton flyer won the last Mallee Classic \$10,000 also won Champion Ace Bird & Champion Overall Ace Bird bred from a pigeon purchased from me, off the very same pigeons that are in this auction.

I am also breeding off a son of the original pair and a Staf hen AUST 10.20148 raced in Taree one loft race came home late only had $\frac{3}{4}$ of feathers in her wing. I considered her a very good hen. Her sire was a Kevin Hayden Staf MAS 04.638, they were known as Producers 7210, Tom Wills purchased the originals. These were extremely good in Sydney and the progeny sold for big dollars at Tom Wills auctions. If you like Stafs like I do, you must have a look at these! I should mention that Graham Davidson won Parkes One Loft Race a couple of years ago with a Staf same as these, which tells me that they will race in the country as well as the city.

Flor Engles

My Flor Engles are mainly off the Lu Bros of the De Dikke cock, White tail & Bullet. De Dikke National Winner. 1st Chateauroux 13,285 birds. 10th National Bourges 9,759 birds. 2nd Prov Chateauroux 1,848 birds. The mother of my Flor Engles AUST 06.4405 bred 4 x 1st Federation winners, 2 x 2nd and 1 x 6th Feds and many club wins in NSW.

The sire BCP VHA 10.11691. Grandson of the Bullet & White Tail.

The Stichelbaut Pigeons

The big advantage about Stichelbauts is they excel on very hard days and easterly winds. Graham Davidson SCF still holds the record for Bundaberg to the SCF Fed over 650 miles on the day. With a Stichelbaut they will fly 700 miles. My BLUE CAVIAR & my Adelaide prize winner were half Stichelbauts and they survived some very hard lead up races. Even though Stichelbaut sold out in 1946, these pigeons are still very much in demand in England & Europe today. Fetching big money to purchase them, the Base Pigeons for the Raul Sablons are Stichelbauts. Very determined pigeons with a will to

keep going when the going gets tough. A must to have in every loft in my opinion. It does not matter how much you feed them, they don't put on weight.

Only about 4, possibly 6 Stichelbaut were imported into Australia in the late nineties. They were down off National Winners and were kept in a farmers loft in Victoria for a period of time, until Laurie Dennis obtained all the imports. Laurie sent the young to various lofts in Victoria, NSW & Queensland. Every pigeon that went out to race either won or bred winners from the start to the last race 600 mile John Goodwin WPF Flyer. Won many races with one pigeon up to 600 miles timed in 12 times, and then went on to breed two fed winners in 2011.

There have been over 8 occasions where these Stichelbauts have won at 400, 500 & 600 mile from pigeons sent out from Laurie Dennis' loft to race. The best producers were Mealy Cock AUST 01 20997 & BB Pied hen VRPV 03 13756, both off the imports. Another cock was a Strawberry Mealy Cock Rung TAM 05 258.

He is the grand sire of my hen BLUE CAVIAR won 5th prize in the Gold Coast 50,000 2013 & is the sire of my 19th prize in the Adelaide 10,000 2013. Dam: a David Cunningham Goodger.

The history of the Alois Stichelbaut Pigeons

The emergence of the Stichelbaut strain first came into existence in 1922 when Alois Stichelbaut bought two pigeons from the loft of a deceased friend, Alfons Derumeaux. It would be well to keep the name Derumeaux in mind because it is often mentioned in the formation of Belgian lofts of a very high calibre. Only about six other pigeons were introduced.

Never has a pigeon strain been more in the limelight than the Stichelbaut strain. This is easily explained by the fact that after the death of Alois Stichelbaut many great Belgian and foreign champions have had wonderful results with this outstanding strain, especially when it came to the 500 to 700 mile distances.

Selecting at random we mention the following celebrities who have been at the top with the Stichelbaut strain. Michel Descamps ~ Van Hasten ~ Gerard Vanhee ~ Rodger Vireecke ~ Leopold Boslyn ~ Marcel Desmet ~ Dewert. The above list is incomplete as the Stichelbauts went everywhere. Many present day lofts have to thank their lucky stars for these particular Stichelbaut birds. (*The Black Raven Loon was off a black Stichelbaut hen*).

Many fanciers ask where does the red checker Stichelbaut come from? Alois Stichelbaut's main pigeon was a strawberry Mealy cock, ring BELG 34 3236983. The only red in the team he was known as De Goede Bleken (meaning in English "The Good Mealy Cock"). Raced from 1936 til 1939 until Germany occupied Belgium. He won 25 prizes and won all the pools on 6 occasions. He was Alois' favourite pigeon and was described as an outstanding pigeon.

On two occasions he won the title of Long Distance Champion of West Flanders. I have a photo of this cock & he is identical to my main Stichelbaut 258. Alois only kept about four pigeons hidden during the war. There is a lot more to be written about, but space does not allow. Alois Stichelbaut's final auction on 27th January 1946 at 3.30pm in the city of Kortrijk. There were 15 cocks & 11 hens, realising 145,000 francs. The Oude Bleken cock (Good Mealy) was Lot 1 and the only red, but was the sire of a fair percentage of the auction pigeons, mainly Black checkers & Blue Bars. He was 13 years old when sold and still fertile!

Interestingly, I noted there were no young reds in the auction off this cock.

Where did they go? Or should I say, who got them???

The Hereman/Ceusters in Australia

I have three lines of the Hereman/Ceusters in my loft.

The first one is the Euro pair. Both hen and cock are off the famous SUPER HERO. Son of the Euro cock. The dam of my cock is a daughter of HORUS who is a full brother to the Euro cock. A big winner himself. There are sons and daughters in the auction of this pair. Half-brother & sister mating. I personally don't believe there are better Hereman/Ceusters of Euro cock than this pair in Australia. I paid \$8,000 for the pair. SUPER HERO is responsible for **two 50,000 Gold Coast winners, third South Africa Million Dollar race for Pat Murphy (Aust).**

Graham Kerr's outstanding winner which enabled Graham to win the averages in the SCF Federation. The parents of my pair of Euros were sold for \$15,000 at Malcolm Coulson's final auction held in Sydney on 26th October 2014.

The second one is the grandson of SAMSON. Samson was bred by Leo Herman and raced by Marina Van de Velde. Samson won 1st National against 33,097 pigeons.

An imported son of Samson was owned by Qld flyers Ketchell & Sheldrick in two years paired to 5 different hens. Produced for them 16 x first or equal first in two seasons. Since arriving at MV Lofts Adelaide continued the winning formula, producing 1st SAHPA open Stirling North 270 km, 4th SAHPA Open Stirling, 3rd SAHPA Terang10 bird Special, (It was a very hard race all day), 38th SAHPA Lyndhurst Open 503km. I paired my Samson cock to the granddaughter of Euro cock. There are sons and daughters of this pair in the auction also.

My third pair of Hereman/Ceusters is a grandson of the OLYMPUS cock and is known as the Charity Cock. Purchased for \$2,800 BC AUST 09.208 a large sum at the time in 2010. The price of these pigeons has gone up considerably since then because of their great success on the race track. They have a very high strike rate. There are so many recorded wins of the OLYMPUS cock. A son of my OLYMPUS cock bred the Fastest Pigeon in AUSTRALIA in 2014. 2,534 mpm for Mark Jefferies. Sold to Mark in 2013 and repurchased back in 2015 for a very large sum. One of the fastest recorded times in pigeon racing in Australia. 208 is paired to his half-sister who is off the Jooza hen who is down of the famous VAN DYKE cock KANIBOOI. Sons and daughters will be in this auction.

PS, I should mention some of the Hereman/Ceusters are a bit on the big side but when paired out drop down to a suitable size for racing. It should also be mentioned that the pigeon that won 3rd in the Gold Coast 50,000 for Jason Stig was down of the Olympus Hereman/Ceusters and a Staff Van Reet. The same as the ones in this auction.

The Gaby Vandenbeeles

Originally from Jack Vanderlinden and two hens from Laurie Dennis. WITTENBUIK STAR features in both pigeons. Most flyers know the value of the Gabys. The same Gaby Vandenabeeles that were in Mal Coulson Auction are the same as the ones I have in this auction.

Raven Van Loons

The Raven Van Loons are my choice of the Van Loons. They have won Nationals in Australia and will go the distance and are an excellent cross to most breeds. I don't believe there are better Van Loons than the Raven Van Loons.

Lot 1. AUST 14.11707 Blue Bar Hen **Stichelbaut**

ALL GOLD bred right for a stock hen. Look at her pedigree. Half-sister to the mother of my BLUE CAVIAR 5th Gold Coast 50,000 only 3 1/2 minutes off winning 2014.

Sire Red Check TAM 05.258 main stock cock in the Stichelbaut. They don't come any better than 258. Purchased for a large sum from L. Dennis. Sire of two 500 mile winners, two 600 mile winners and two four hundred mile winners. Also sire of Mr. Goodwin's WPF Red Check Pied hen timed in 12 times for wins and prizes, went on to fly 2,600 miles in races. All these winners were won by different flyers Qld, NSW and Vic. 258 also bred my 19th position in Adelaide 10,000. A very hard race, with only 3 home on the day. Dam Blue Bar AUST 08.111 Stichelbaut. Flew Tweed Heads to Newcastle 10,000 in 2009. Mother of 111 won Tassie for Kevin Maher (Vic).
