Preface

Jack started racing pigeons in 1963, he purchased birds at the O'Toole brother's sale, including two sons of the No.1 pair 1644 x 2002 as well as the famous O'Toole cock 1644 and these original birds can be traced back in the pedigree of the birds he was racing up until his passing.

Several crosses have been put through the original birds over the years, notably from flyers like R Watton and A Howard and more recently from C Wright and the Gridley Brothers. The birds from the Gridley brothers have been particularly successful, breeding among others Sheila Smith's Fed winner. None of the so called import blood can be found in these birds, they are all the Old Brisbane blood that have been so good, particularly at the distance racing, for so long and in are fact still winning today.
