Testimonials

It is with sadness that I write this testimonial for my friend and competitor Tom Wills. Serious illness means that Tom will sell his entire stock of racing pigeons. The pigeons to be sold have taken a lifetime of dedication and a single minded pursuit of excellence to develop into a competitive force from the first race to the last in Australia's largest pigeon racing Federation.

I will not dwell on the person, but suffice to say that his record over a lifetime speaks for itself. Tom has been a fierce competitor when racing, a devoted supporter of the betterment of the sport and an enthusiastic protector of the welfare of the racing pigeon.

Tom always said, "you need to buy the best pigeons you can and then test them!" It did not matter what Tom paid for a pigeon, if it did not perform and improve his overall flock, it was quickly discarded.

This relentless attitude for improvement means that Tom tested many pigeons over a lifetime. You can be assured that whatever is included in his last ever sale has proved itself over and over again. Both for himself and the many people he has helped along the way, myself included.

Many flyers across Australia have gained immediate success with pigeons either bought from or gifted by Tom.

Tom has bought and tested pigeons from top overseas and Australian lofts, never sparing any expense to buy the best he can. He has an amazing knack of picking the best birds in any loft.

I can say without any hesitation that the pigeons in this sale will improve any flock, in any loft in Australia.

If you want to improve your bloodlines and your performance, this is the sale to attend. I know I do, and I will be there.

Vince Pedavoli, CCF Sydney

This sale brings to an end a period of 60 years during which Tom Wills participated in pigeon racing in the Sydney area. During this time he not only built an enviable reputation as a competitor to be reckoned with but also as a breeder whose birds performed well in the hands of other fanciers.

In my opinion Tom is one of the few fanciers who can identify and mate prospective breeders to produce pigeons that win races. Just recently he took the first THREE positions in the Rooty Hill Squeaker Sale race, winning more than \$19,000.

Since his start in the sport he has hunted down good pigeons and despite financial limitations personally has paid top prices for them. On his first trip to the Continent he came back amongst others with the Janssens from Andre van der Wiel. The offspring of these birds have become famous, not only in his hands but also in the hands of famous fanciers such as Trevor Steed etc. The Jos Thone birds crossed in particular with Toms' Staf van Reets produced numerous outstanding birds.

On his recent visit to Belgium and Holland he brought birds from Jos Vercammen (easily one of the top three middle distance champions in Belgium) and again also from Andre van der Wiel, this time children of "Miss Teletext" Andre's present best racer and breeder. After we returned from Belgium the father of one of the babies Tom bought from Vercammen bred a National winner for Vercammen. Children of his last imports have already won races for Tom this season.

From long association with Tom I can advise that the birds Tom are offering in this sale WILL strengthen any stock loft and give the new owners perhaps that edge they need to realise their dreams for the new season. As mentioned above Tom has a gift for putting good stock pairs together and their offspring are well represented in the sale. Here are pigeons that can produce offspring to win in today's tough competition and difficult conditions.

I have personally acquired a substantial number of birds from Tom and their offspring have raced well for me including a number of federation winners.

It gives me much pleasure in recommending the birds offered for sale for your favourable consideration.

Peter Badenhorst

19 October 2012.

It is with great honour that I write this testimonial to an exceptional pigeon fancier and his tremendous family of pigeons. Pigeons that not only win for him, but also the countless fanciers across this country lucky enough to have them. I'm speaking of none other than Tom Wills, who races in the largest federation in this country, the CCF, boasting 400+ flying members, and his results (even through his illness!) speak volumes about his prowess as a fancier, as well as the quality of his birds.

2011 was the first season we competed with the Tom Wills birds, and we had a great season, finishing 2nd SCPF averages and 7th NRC averages(70+ flyers).The “star” of the season was SCPF '09 0082.(bred 2010 with an old ring.) a Blue Chequer Hen who was our clock bird 6 times! This year we've again had a fantastic season with “0082” being our clock bird a further 4 times! What a pigeon! This year we had another “star” in QPF'11 10530 a blue bar cock, who topped the club from Rockhampton (approx. 450km) by 21min, and the North Road Combine(83 flyers) by just under 8min! Incidentally this young cocks grandmother won the Central Cumberland Federation (400+ flyers) by 7min for Tom Wills! These birds not only win themselves but also pass on these winning genes to their offspring. We are truly grateful to Tom for his kindness, friendship, and supreme generosity with his birds.

It is my humble opinion that if you are tired of being an “ALSO RAN”, do what we did, and invest in this outstanding family of pigeons that will propel you into the results of your club & federation.

This is a complete disposal sale due to Tom's ill health, so there will not be another opportunity to acquire pigeons of this calibre!

“Team Sethi” (Roy, Carolyn, Sebastian, & Christian Sethi.)

I sincerely wish to thank Vince Pedavoli, Peter Badenhorst and “Team Sethi”, Roy, Carolyn, Sebastian and Christian Sethi for their testimonials of my pigeons. It is that pleasing to me that these fine pigeon fanciers volunteered their time to do this for me, it is greatly appreciated. I wish you all much joy and success in your sport of Pigeon Racing.

Tom Wills

LOFT PERFORMANCE

The Wills family of racing pigeons have won 6 FEDERATION OVERALL AVERAGES in the past decade plus 2nd, 3rd Overall Averages, all flown from different routes. They have also won many CLASSIC races, Jack Elliott Interclub Memorial, ring and squeaker sale races winning or featuring prominently, and many Derby wins. Success has been restricted since 2008 with Tom battling cancer ... he had not given in, but the odds are against him

I have checked and listed the awards and merit cards won by Tom Wills for the period 2009 until 2012. Tom has been awarded over 100 FIRST PLACE CARS, SEVEN times FIRST FEDERATION, ELEVEN times FIRST SECTION.

JOS THONE, Belgium

Lot 16 CCF-06-70253 Blue Bar Pied Cock

Champion racer, now one of my best producers. The very best bloodlines of Jos Thone. I named "70253" the "Bridesmaid" as he arrived on four occasions to win along with two of my other great racers "68888" (Lot 27) and "70666", "The Biter" (Lot 28) ... "The Magnificent Three"! I stocked "68888" and "70666". In the next two races "70253" was there to win but I had changed the trap-in, so he had a second prize, then in his next start he finished second again. In each of these races I gained top positions in the CC Federation. "70253" was then stocked and is now one of my best producers. "70253" is a magnificent pigeon so much so that when I found out Steve Eggleton of Kuringa Club was judging the Sydney racing pigeon show I entered him and he won under this very talented pigeon fancier (whom I have known since he was 14 years old and with his father a great fancier).

Sire: AUST-00-214 Blue Chequer Flighty Cock

Bred from Pair 11 of Jos Thone Australian Stud Book. "214" a great producer of winners and stock birds including 1st Club Derby 400 miles, 3rd CCF Federation. "214" was sold to Peter Badenhorst for \$5000 on the condition that I breed another pair of youngster mated to one of my best breeding hens "21171". From this mating I produced "70253".

Dam: AUST-01-21171 Blue Bar Hen

This hen was purchased by Peter Badenhorst and is now one of his best producing hens. Unraced and always at stock. She has produced Federation Toppers mated to different cocks. She is the dam of "7947". "7947" had 2 race starts only, then jumped into Beckham 422 kms, won the club by 1 hour, 3rd CCF Fed 7,450 birds then next race won 1st Federation Coleambally Young Bird Derby when out of position.

G/Sire: AUST-99-24777 BBC Son of "Octagonal" a winner of 5 races.
 G/Dam: BELG-99-501751 BBH Ref G of Jos Thone. Daughter of "Nefertete" 1st National Bourges 500 kms, Belgium.

Lot 17 SRPC-08-2793 Blue Bar Cock

A great racer, winning 4th SRPF National. Then hawked badly. Raced the following season and was an equal winner a couple of times, then stocked. I believe he will be a great producer. "2793" has tremendous character and vibrancy and will be someone's foundation stock bird.

Sire: AUST-03-7946 Blue Bar Cock (Lot 29). Thone / Staf blood lines. Foundation stock bird.

Dam: CCF-06-68875 Blue Bar Hen.

The very best of Jos Thone's birds. "68875" won 1st club, 1st Federation 7,000 plus birds in a hard race in 2008 with only about 40 flyers timing in in the first hour out of 400 plus flyers. Sister "68876" bred amongst others 1st club, 3rd Section, 10th Overall CCF Fed Gunning 190 kms in 2009.

G/Sire: AUST-02-21194 BBC Jos Thone lines.

Bred from BELG-99-5091740 Ref 9 x AUST-00-24876 (Jos Thone Ref 7 x Ref G)

G/Sire: AUST-00-22355 Dark Chequer Flighty Irish Busschaert.

G/Dam: PUN-01-952 BCH. A typical Janssen type. 952 is the grand dam of some of my best stock birds.

I purchased "22355" and "952" from Darrin Paine for a very large sum of money. They produced Darrin Paine's CCF Young Bird Derby winner in 2005, a full sister topped the Fed for Darrin, another sister given to Frank Cook won at 900 kms then produced his CCF Young Bird Derby winner in 2006 with only a few flyers timing in on the day and a grandchild was equal winner SCF National. What a stock pair! They have bred me a Wentworthville Club Young Bird Derby winner from Cootamundra plus 1st Merrylands Club from the hardest race of the season.

Dam: AUST-01-12292 Blue Bar Hen

There to win the CCF National, had 3 races in total, winning a 1st and 3rd then stocked. G/Sire is No. 1 Jos Thone's Australian Stud book. G/Dam is Ref M in the Jos Thone Stud book. The very best of Jos Thone's International Barcelona and distance winners.

Sire: AUST-03-2046 Blue Bar Flighty Cock

“2046” is a direct son of two RENOWN producing pigeons. Blenhaven Stud purchased “The Staf Producer Cock 7210” at my sale in 2002, I purchased “2046” as a squeaker after I arranged for Blenhaven Stud to mate “7210” to the great producing IMPORTED Houban Hen of “Mr Lu” BELG-00-6157851. “2046” has produced FED TOPPERS & winners to a few different hens.

G/Sire of “641” is PRF-94-7210 Blue Bar Cock “The Staf Producer Cock 7210”

Responsible for over 100 winners in Australia, a replica of “The Daniel” foundation Cock of Staf Van Reet himself a winner of 57 first prizes.”7210” is believed by many to be one of Australia’s greatest producers including the “Guru” Graham Davison, SCF. Sire: WV-05-2180 Blue Bar Cock

Now foundation hen of Peter Badenhorst. Bred from "The Staf Producer Cock 7210" and BELG-99-5091751 Blue Bar Hen. Bred by Jos Thone, one of his best birds ever imported to Australia. Bred from his Champion "Fortuna" race cock mated to his Bourges National winner "Nefertee", sister to Jos Thone's foundation cock "Napoleon". Jos sold "Nefertete" and Napoleon to China for €400,000 (euro).

It cannot be done overnight, can take 10 years to breed for stock like I do infrequently, e.g. you mate the best stock cocks best son's best son (a grandson) to the same best stock cocks proven producing daughter. It does work but these birds must also have the confirmation to complement one another. 2180's demise was a great loss to me but his son "68888" has all his qualities.

Toms believed these Wouters pigeons to be at least the equal to any pigeons imported into Australia because in recent years they are proven to be in all of the top overseas lofts, to name a few; Andre Roodhooft of Antwerp, Belgium, Jos Vercammen of Vremole, Belgium, Mark Kitchenbrand of South Africa and German fame. August Dealemans, renown pigeon journalist worldwide stated that "Lou Wouters pigeons were extremely valuable for breeding".

Lot 41 DV-03-165 Blue Bar Cock "Son of Golden Couple Lou Wouters"

Bred for Peter Matic former flyer from Germany now my pigeon flying neighbour. Peter knew the value of the Lou Wouters pigeons that were now in Germany. When Lou Wouters died famous German Veterinarian SUDHOFF purchased the entire loft of Lou Wouters from his widow a few days after his passing. Peter Matic who is a tiler by trade did some tiling and paving for me, I repaid him with youngsters from my best pigeons for his labour. Note "165" is rung with a DV (German) ring which was put on by Peter. Originally "165" was double rung as he is really an "2005" pigeon. DV-03-165 proved to be one of Peter's greater breeders, when Peter was selling pigeons I purchased "165" and his full brother WV-05-746 (Lot 42) from Peter for \$3,500.
