Preface – My Story

Due to my wife's health issues and our commitment to retire and do a lap around the country I have made the difficult decision to disperse my Racing Pigeons.

My passion with Pigeons commenced when at the age of 12 having built a small enclosure, from wooden apple boxes, to house a pair of commons. Soon I built a small loft for fancy pigeons, on my parent's farm. These together with my Bantams were an early passion. When my father bought home a Racing Pigeon given to him by Mr Mick Morley, a workmate, it was the start of my obsession with Racing Pigeons. It was not long after that Mr Mick Morley and his sons Robert and Tony informed my father that they would provide me with some good stock birds.

Together with mates from school and around town we raced in the Toowoomba Junior club and with my mate Neil Palmblad and others we formed the Darling Downs Racing Pigeon Assoc (DDRPA). Had plenty good fun especially the end of year fishing trips where plenty of jokes and camaraderie was had around the campfire. Our end of year BBQs were always fun and the 'Horse Racing' nights we had to raise funds created a lot of memories and got some non pigeon people involved in the fun times.

I've raced pigeons on and off over the past 50 or so years. Having worked overseas on contracts and for companies that have sent me around the country and abroad at various times has meant I had a few breaks along the way. My life took us to move between Toowoomba and Brisbane to settle a couple of times.

My passion has been towards the longer races and performance bloodlines and hence you should see in my catalogue a focus on the performance birds for breeding. It's not easy to acquire direct descendants but where I could I have shared no expense in acquiring the best where possible.

In the Auction you will see descendants of my 1st FED Winton TDPF 1064klm, Perkins family 1st FED Smash Winton, Sons of the 1st GC50000 OLR winner \$34,000, ½ Sisters to 3rd Place South African Million Dollar Race (Pat Murphy not nominated), Daughter of Geoff Verralls 4th Alice Springs 1300 klms, Breeding around K&K Watsons 1st Alice Springs by over 2 hours, Premier Stud UK Premier Olympiad 5 x 1st Feds, Van De Pasch Janssen 'LOWEIKE' Belgium blood, Van Loon hen bred, Pat Murphys VanDeRhees from Sparkes & Hurst to name a few.

I did not race this year due to my work leading up to my planned retirement and some medical issues my wife faced. Hence, I did put together some special pairs to concentrate the genetics of my best performed bloodlines. These were mostly bred in the off season as whilst I had committed to the travel the thought of disposal of my birds was a hard one.

I am hoping you can procure some of these bloodlines that have given me some great thrills and memories over these past years and provide some for you. I will always be keen to find out how you go with them.

Please come along and view the birds. There are the original birds with TOP FED Spots and also direct offspring. Where there's performance in the ancestral tree you obviously increase your chance greatly.

Wishing all who purchase birds the best for the future with them.

Best Wishes

K Malone
